

NetLibrary to EBSCO Changeover

The existing NetLibrary site for checking out e-audiobooks will be retired within the next few weeks and a new platform, EBSCO*host* will be available. You can preview the EBSCO*host* application through the links in your current NetLibrary account but, at present, these only allow you to look at ebooks, an option which will not be available through Wicklow County Council Library Service.

- Before July 16th, it is important that you back-up any personal information, favourites, etc, that you may have stored on your NetLibrary account.
- If you have been using NetLibrary's Media Centre, this also will be replaced. A new version of Download Manager will be needed and you will be prompted to install this the first time you use EBSCO*host*.
- In order to use EBSCO*host*, you will need to create a new account.

You can find step by step instructions on how to create a new account as well as try out previews of EBSCO*host* at <http://support.ebsco.com/ebooks/>

Thanks for your patience while we change our system. It will result in a faster, better service for all our borrowers.

Wicklow County Council Library Service
July 2011
